Yuzu Kukicha Green Tea.....5.6

Kirishima, Kagoshima, Japan
Notes: Refreshing, Sweet, Citrus

On the fog-shrouded slopes of Kirishima Mountain, Japan's southernmost tea cultivation region, the Nishi family organically grow our Yuzu Kukicha. The vibrant green stems of Kukicha blend harmoniously with the Japanese citrus fruit Yuzu, yielding a revitalising, sweet tea with a punch of sweet citrus.

California Persian.....5.9

Fuzhou, Fujian Province, China
Notes: Floral, Sweet, Jasmine Blossom

Our California Persian starts with traditional Persian tea, which is a blend of black tea and rose petals, and then adds jasmine, orange, cardamom, and a hint of bergamot. Great with milk and sugar, this tea features high caffeine in a full-bodied floral infusion.

Liu Bao Heicha.....7.9

Liubao township, Guangxi, China
Notes: Rich, Pine, Musk, Sweet Plum

Liu Bao is the lesser known sister to Puerh Tea, but no less enjoyable. Some say that the process used to make Liu Bao is where the Shou Pu-erh tea making process originated. Made from fermented black tea and grown high in the mountains near Liubao township, Guangxi, our Liu Bao tea is aged in baskets through a process of fermentation. The flavor is rich and bold, each sip offers a sweet comforting allure of musk, pine, and sweet plum.

Tres #8 Hong Cha Black Tea8.9

Yu Chi Township, Nantou County, Taiwan
Notes: Honey, Baked Fruits, Camphor

First introduced to Taiwan in the early 1920s, The Taiwan Research and Extension Station (TRES) identified the Sun Moon Lake region of central Taiwan as providing the perfect conditions for black tea production. When infused, the large curved leaves produce a deep orange-brown hue with rounded fruity sweetness and superb cherry like aromas. Because of how dark and sweet this tea is, this tea pairs wonderfully with a croissant.

Jasmine Dragon Pearls7.9

Fuzhou, Fujian Province, China
Notes: Floral, Sweet, Jasmine Blossom

Jasmine Dragon Pearl is known as a customary welcoming beverage in Northern China. It adopts a very distinct preparation method that involves fashioning an exceptionally long leaf and bud together into tightly rolled silvery colored pearls. This award winning tea uses the youngest leaves, harvested in early spring and scented 6 times over with Jasmine blossoms. Once steeped, the pearls unravel to unleash a sweet, medium-bodied green tea with an alluring velvety texture, intonated with inviting floral tones.

Longjing.....7.9

Hangzhou, Zhejiang Province, China

Longjing translates as "Dragon Well," a reference to a famous old well outside the city of Hanzhou. The roasted flavor and flat shape of the leaves are a result workers pressing the green leaves against a heated wok using the flat palms of their hands. When infused, Longjing offers a rich, savory buttery taste with a mellow roasted aroma.

LAS MERCEDES

Country.....Peru
Region.....San Ignacio, Cajamarca, Peru
Elevation.....1900-2200 meters
Organization.....Aroma del Valle
Producer.....6 Aroma del Valle farmers
Varieties.....Caturra, Typica, Pache & Mundo Novo
Process.....Washed & Dried on Raised Beds
Roaster Notes.....Chocolate, Caramel & Dark Fruit

This particular community lot comes from six producers who live in Las Mercedes where the unique microclimate and shared commitment for cultivating quality coffee produces a remarkable regional profile. These producers individually cultivate coffee on just a few acres of land alongside shade trees, bananas, corn, and beans. Each farmer washes and dries the coffee using the same method on their farm.

The consistent processing produces a traceable community blend brought to the international market through an alliance with Aroma del Valle, an organization established to assist producers access the specialty coffee market and earn higher prices for their coffee. Aroma del Valle carries out activities like investments for basic infrastructure needs, road improvements, establishing local warehouses, and preparing coffee for export. Aroma del Valle also helps farmers navigate the organic certification process.

SHAKISO NATURAL

Country.....Ethiopia
Region.....Guji, Oromia
Elevation.....1900-2200 meters
Organization.....Kayon Mountain Coffee Farm
Producer.....Ismel Hassan
Varieties.....Ethiopian Landraces
Process.....Dried in Cherry on Raised Beds
Roaster Notes.....Strawberry, Blackberry, Floral

The Kayon Mountain Coffee Farm covers about 300 hectares planted in coffee, and has been owned and operated by Ismel Hassen and his family since 2012.

Ismel oversees a staff of 25 permanent full-time and 300 seasonal employees, and the farm management offers free transportation services as well as financial support for building schools and administration buildings for the community. Ismel pays higher wages to their pickers in order to incentivize them returning year after year.

Kayon Mountain farm has a nursery on-site, and utilizes shade to protect the coffee as well as for creating compost to fertilize naturally. Ismel is meticulous about not only the structure and management of the farm itself, but also the harvesting and processing.
